RE: TA Contract Amendment No. 3  
with Jacobs Engineering Group

Anna, attached hereto please find your (accounting's) copy of Amendment No. 3 to our contract with Jacobs Engineering Group. Governor Fernando signed off on the amendment on June 28, 1985, after we discussed concerns he had regarding the main contract with the Bureau of Indian Affairs. His main concern was whether or not work under the proposed amendment was within the scope of the contract. My discussions with the COR didn't indicate any problems. I called Jacobs immediately thereafter (6/28/85) so that they could proceed with work under the contract and as described in this amendment.

Photocopies are being sent to Governor Fernando's and Secretary Pedro's office.
